Please describe your problem and the current status of your claim.

I served aboard the U.S. D.F. 746 Hamminger in June 1952; we left the U.S. Navy Norfolk, VA. Harbor for Portugal & France. On our tail (back of the ship) were approx 8000 55 gals. drums tied down. we were told of 1500 Radio Active materials. After serving 21 days they dump them in the ocean, for I was station in the engine room & I have no idea the dates for that is why I am requesting the ship log writings. The Democrats always talking on the things happening over Earth. Let's have some truth for this happen under Harry Truman watch. I was engine man 2 class Petty officer when I was discharged Nov 1952.
